Superintendent's Highlights

The school year was highlighted by significant accomplishments in student achievement and activities by our students in all our schools. In addition, our schools continue to be recognized by the Idaho State Department Bureau of Curriculum and Accountability as "exemplary" for excellent achievement.

During the past year, the reading curriculum was revised along with science and technology. Achievement Level Testing provided specific information on student achievement, along with other assessments including the Informal Reading Assessment and standardized testing. A significant number of teachers were provided instruction in the Lindamood-Bell program and weekly reading "clinics" for students in need.

The school district continues to enhance our student facilities with the building of a new high school scheduled for completion in July 2002 and occupancy for the fall 2002. The district began to address the renovating of the existing high school which will house two grades from lower grades.

Progress Towards Meeting District Goals

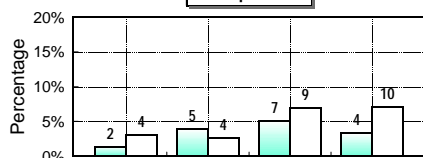

2000-01 Goals	Progress
Student Achievement and Activities:	With the assistance of teachers and staff, the district reading program was reviewed and revised. Using data from the Achievement Levels Testing and techniques from the Lindamood-Bell reading system, teachers were able to help their students make significant gains.
Maintain and improve the curriculum, instruction, and assessment process.	
Facilities Development:	The district continued construction of a new 142,000 square feet high school, while continuing to renovate the interior of Hillcrest Elementary. Although a levy aimed at renovating the existing high school was not successful, the district continues to make plans to relocate two grades while making additional space for the other schools.
Develop a long-range facility development plan, preventative maintenances program and upgrade existing buildings and facilities.
